

THE ANATOMY OF A CABINET LOCK

The Unicon™ CL Series Software is the heart of the CL20 multi-use cabinet lock.

Three pin connector for lock programming and audit download.

Non-volatile memory stores the last 400 opening and closing events with date and time stamp.

Turn knob with clutch mechanism prevents over-torquing.

LED indicators for open, closed and battery status.

Domed key pad provides tactile feedback during entry of combination.
