

## End-of-Life Notification

August 10, 2009

Dear Valued Customer:

As part of our on-going product lifecycle management process, we have identified a number of **LA GARD** brand products that will be transitioned to an "End-of-Life" status. This decision is based on a number of contributing factors:

- Third party hardware obsolescence
- Modifications required for agency approval to VdS 2396, Amendment S1
- Availability of direct replacement (ComboGard Pro)

Products targeted for end-of-life will be available for last time purchases prior to being made obsolete. These products are:

<b>Part Number</b>	<b>Replacement</b>
3045 Handheld Programmer	701104, includes set-up software
4100, 33E code	4300, 39E code
3040, 33E code	6040, 39E code
2441, 33E code	6441, 39E code

Under the terms of the last time purchase program, orders for these products will be accepted until November 30, 2009, with ship dates no later than December 31, 2009. Acceptance of last time orders is subject to product availability.

Products purchased during this end-of-life transition will be fully covered by Kaba Mas' standard product warranty. Potential product returns will be accepted under our normal RMA procedures. Analysis will be limited to verification of failure and remedies will be limited to credit for the purchase price of the product.

If you have any questions concerning this notification, please contact your Kaba Mas sales representative.

Sincerely,

A handwritten signature in blue ink that reads "Steph Pollack".
